

## **SELF- Study of A Jewish Early Childhood Center Using JECEI'S LENSES, LOGIC MODEL, & INDICATORS**

This document explains the vision and principles of the JECEI change model and then provides work sheets that can be used to do a self-study of a Jewish Early Childhood Center. This material can be modified as you wish and the self-study report does not need to reference JECEI.

Foundational to JECEI are ideas and values about Jewish life expressed as the “JECEI Lenses.” The JECEI Lenses are ways of viewing and experiencing our lives and the world:

- *Masa* – (Journey) – reflection, return and renewal
- *B'rit* – (Covenant) – belonging and commitment
- *Tzelem Elokim* – (Divine Image) – dignity and potential
- *K'dushah* – (Holiness) – intentionality and presence
- *Hit'orerut* – (Awakening) – amazement and gratitude
- *D'rash* – (Interpretation) – inquiry, dialogue, and transmission
- *Tikkun Olam* – (Repair of the World) – responsibility

The JECEI Lenses inform our vision and approach to Jewish early childhood education as we integrate them with constructivist, Reggio inspired theories and practices in our work with children, families, and schools.

### **JECEI LOGIC MODEL, TRICOLON, INDICATORS AND EVIDENCE**

The JECEI Logic Model explains the reason that JECEI exists. It articulates what JECEI is setting out to accomplish. The Logic Model both describes the desired outcomes and the main activities for achieving these outcomes. The Logic Model focuses on three areas: Quality Early Childhood Education, Engaging Families in Jewish Living and Learning, and Shared Leadership. These three areas incorporate key ideas including: relationships, vision, and environment.

What does a school look like that achieves these outcomes? The answer to that question is articulated as JECEI Principles of Quality in each of the three areas, a tri-colon: Quality Early Childhood Education, Engaging Families in Jewish Living and Learning, and Shared Leadership.

The 13 JECEI Indicators are broken down into even more concrete observable pieces of evidence specifying what educational excellence looks like in a Jewish early childhood school. The description of these 13 JECEI Indicators makes it possible for a school to adapt these behaviors and provide a basis by which a school can be accredited and then branded as a JECEI school of excellence.
